## Cardiovascular Disease Risk Register

Read Code	Screen Description	Read Code Description
<b>Blood pressure</b>		
2469.	Systolic BP reading	O/E - Systolic BP reading
246A.	Diastolic BP reading	O/E - Diastolic BP reading
<b>Smoking status</b>		
137R.	Current smoker	Current smoker
137S.	Ex smoker	Ex smoker
1371.	Never smoked tobacco	Never smoked tobacco
8CAL.	Smoking cessation advice	Smoking cessation advice
<b>BMI</b>		
229..	Height (metres)	O/E - height
22A..	Weight (kg)	O/E - weight
22K..	BMI	Body Mass Index
<b>Family history of IHD</b>		
1226.	No family history ischaemic heart dis.	No FH: Ischaemic heart disease
12C3.	Family history of ischaemic heart dis. > 60	FH: Ischaemic heart dis. >60
12C2.	Family history of ischaemic heart dis. < 60	FH: Ischaemic heart dis. <60
<b>Family history of CVD</b>		
1225.	No family history of stroke/TIA	No FH: Stroke/TIA
12C7.	Family history of trans. ischaemic attack	FH: Transient ischaemic attack
12C4.	Family history of CVA/stroke	FH: CVA/stroke
<b>Family history of Diabetes Mellitus</b>		
1228.	No family history of diabetes	No FH: Diabetes
1252.	Family history of diabetes mellitus	FH: Diabetes mellitus
1253.	Family history of diabetes in 1st degree relative	FH: DM in 1st degree relative
122Z.	No specific family history	No FH: NOS
<b>Record history of CHD</b>		
ZD005	No significant history of CHD	No significant history of CHD
G30z.	Acute myocardial infarction	Acute myocardial infarct. NOS
G3z..	Ischaemic heart disease	Ischaemic heart disease NOS
<b>Record history of CVD</b>		
ZD003	No significant history of Stroke	No significant history of Stroke
ZD004	No significant history of TIA	No significant history of TIA
G61..	Intracerebral haemorrhage	Intracerebral haemorrhage
G66..	Stroke/CVA unspecified	Stroke/CVA unspecified
G64z.	Cerebral infarction	Cerebral infarction NOS
<b>Record history of diabetes</b>		
ZD001	No significant history of diabetes	No significant history of diabetes

C10E.  
C10F.  
C10C.  
L1809  
6896.

**Record history of  
hypertension**

---

ZD002

G20..

Type 1 diabetes mellitus  
Type 2 diabetes mellitus  
Maturity onset diabetes in youth  
Gestational diabetes mellitus  
Depression screen completed

No significant history of  
hypertension  
Essential hypertension

Type 1 diabetes mellitus  
Type 2 diabetes mellitus  
Matur ons diab in youth  
Gestational diabetes mellitus  
Depression screen using quest

No significant history of hypertension  
Essential hypertension
