

-Additions/Changes to Guideline – Oct 2011 – Lothian

ES Service	Change Made										
Drug Misuse	Due to the complexity of the Drug Misuse Enhanced Service, we would recommend that the ESCRO electronic screens (grey button at the top of the guideline) are used for data entry during a consultation. Encounter comments now work for Vision users. Comments attached to read code 9N11.										
Drug Misuse	Removed Hep C PCR code '43h3.' Added '4JQC.' – Hep C viral ribonucleic acid PCR negative & '4JQD.' - Hep C viral ribonucleic acid PCR positive										
Drug Misuse	Added 'ZV02B - Hep B carrier' Added '43k1. – Hep C antigen level'										
Drug Misuse	Removed 'A707X – Chronic viral hepatitis, unspec'. Removed 6829. – Hep C screening										
Drug Misuse	Changed Consultation read code '9Na..' to '9No5. - Seen in substance misuse clinic'										
Drug Misuse	Added read code 43k1. - Hepatitis C antigen level - under section PCR details										
Alcohol BI	<table border="0" style="width: 100%;"> <tr> <td colspan="2">Change of alcohol read codes to use drinker status defaults</td> </tr> <tr> <td style="width: 30%;">1361.</td> <td style="text-align: center;">Teetotaller</td> </tr> <tr> <td>1367.</td> <td style="text-align: center;">Stopped drinking alcohol</td> </tr> <tr> <td>136Z.</td> <td style="text-align: center;">Alcohol consumption (heaviest drinking day)</td> </tr> <tr> <td>136..</td> <td style="text-align: center;">Alcohol consumption (per week)</td> </tr> </table>	Change of alcohol read codes to use drinker status defaults		1361.	Teetotaller	1367.	Stopped drinking alcohol	136Z.	Alcohol consumption (heaviest drinking day)	136..	Alcohol consumption (per week)
Change of alcohol read codes to use drinker status defaults											
1361.	Teetotaller										
1367.	Stopped drinking alcohol										
136Z.	Alcohol consumption (heaviest drinking day)										
136..	Alcohol consumption (per week)										
Alcohol BI	Added '9O... - Screening positive at other agency' and '9k14. - BI provided by other agency'										

Please Note: Using the electronic screens (Data Collection)

In order for the data collection electronic screens to work correctly, there should be a yellow folder named 'escro' on your 'O Drive. Download the file **vdcsetup.exe** (from the Download Page on the Escro website) to the O drive (or shared folder), then run the file **vdcsetup.exe** on each client PC (Log out of Vision first) found in the Escro folder.
